## INSPIRED BY THE FORMIDABLE CRAGGY TERRAINS

Nature and its forms hold tremendous inspiration and taking motivation from the tall standing mountains, age-abiding terrains, and formidable forms of nature, Our brings you the Runo Collection. A collection crafted in light of nature's resilience, aesthetics, and strength to offer all in your spaces.

The collection resembles craggy terrains, ragged mountains, and far-stretching sand dunes and brings formidable energy, strength, and aesthetics to your spaces transforming them into the reflection of nature in every sense.

The collection helps you to craft spaces that stay unaffected by the passage of time, atrocities of modern-day lifestyle, usages, and traffic, and the ones that resemble the elegant beauty of nature which is timeless, invigorating, and awe-inspiring.

So allow your spaces to breathe the magnanimity of nature with the ceramic excellence of the collection which envelopes the goodness of nature and delivers in a package modern, functional, and practical in use for spaces second to none.

### **RUNO** **COLLECTION**

The Runo Collection brings you the perfect amalgamation of nature-inspired aesthetics and resilience and modern-day ceramic excellence in a superior punch surface, 9mm thick colorbody, and colors that are an all-time classic.

# COLOR RANGE

## 4 COLORS

The collection consists of a classic quad of colors in sizes 1200x1800mm and 800x1600mm that redefines spaces splendidly. The colors speak of versatility and boldness in equal measure and are crafted carefully keeping in view the vision of an aesthetic and appealing space.

The mass-appealing colors redefine luxury, opulence, and vigor in your spaces transforming them into influential spaces transcending time and trends with aesthetics and colors unmatched and redefining clean contemporary minimalism.

## Glazed Vitrified Tiles

---

### Tile Body

*The best quality raw materials make up the resilient and robust tile body of Our tiles. The raw materials are ethically sourced and sustainably processed.*

### Engobe Layer

*A highly opacious, fusible, and permeable engobe layer makes the second layer of the tiles of Our. The layer makes the tiles highly resistant to water absorption for longevity.*

### High Pigment Digital Printing Ink

*The Our surfaces get their unique and versatile properties of the design, color, and more in this stage where digital printing is done on the glaze with high pigment ink for excellent results.*

### Glaze Layer

*A high-quality glaze coating is added to the engobe layer of the Our tiles giving the tile properties of texture and shine and making them ready for design and color.*

### EASY TO CLEAN

The superior glaze of the collection makes the surfaces easy to clean and low maintenance.

### STAIN RESISTANT

Do not worry about spills and stains with the high stain-resistant glaze of the premium Our surfaces.

### SCRATCH RESISTANT

Enjoy new-looking surfaces for a very long time with highly scratch and abrasion-resistant surfaces.

## SURFACES WITH CLASS APART FEATURES AND VERSATILITY

### Technical Features:-

Easy To Maintain

UV Resistant

Non-slip

Dimensional Stability

Resistant To Chemicals

Resistant To Acids

Water Proof

Fire Resistant

Prevents Bacterial Growth

Heat Resistant

Frost Resistant

Ecological

### Application Areas:-

Residence

Shops

Offices

Airports

Hotels

Public Places

Malls

**RUNO WHITE**

**DISCOVER SHADE  
WITH PLACID APPEAL**

Immerse your space in the luxurious  
comfort imparted by an eclectic shade with  
placid appeal.

## Laying & Levelling

Base Structure

Cement Laying On Tile

Joints

Fixing The Tile

Spacers + Laveller

Levelling Wedges

After Levelling Process  
Leave Int For 8-10 Hrs.

Remove Wedges  
Ones It Dry

Joint Grouting

Final Cleaning

## Floor and Wall Installation

1. First spread the cement mixer onto the floor and wall substrate.
2. At the same time, apply the cement mixer onto the back of the slab with a tile trowel.
3. The recommended cement mixer must be spread over in one direction only.
4. Using a trowel and follow the same direction as previously applied to the back of the slab.
5. Being careful to maintain a minimum joint of 3mm.
6. Tap the slab with a rubber trowel for a complete fixing, ensuring the air is expelled. It is recommended to start from the centre of the slabs and then move towards the edges.
7. Complete the laying operations using a suitable sealant, while keeping at least a 3mm joint through the use of spacers.
8. To make this task easier, use the special device for pulling over the slabs, available in the market.
9. Levelling wedges at each linear metre of the slabs are recommended.
10. After levelling process leave it for 8-10 hours, remove wedges once it gets dry.
