trendsetter

OUR PRODUCTS **NEVER GO OUT OF TREND**

FINE FEATURES

01

VARIOUS SIZES

You may maintain a delicate balance between the user experience and the building effort involved by choosing from one of our many sizes.

02

PURE HYGIENE SURFACE

With just one swipe, our tiles' incredibly high-quality layer gives you a completely hygienic surface.

03

FIRE RESISTANCE

We offer tiles that won't burn. Due to the material's inertness, a fire won't produce any toxins or volatile organic compounds (VOCs).

04

ABSORB OFF ODOURS

Our tiles have no pores and are water-resistant. They won't collect moisture or soil due to their 0.5% porosity, keeping your home odor-free.

05

TEMPERATURE RESISTANCE

Our tiles are temperature resistant and can withstand high temperatures up to 1600°C.

06

CHEMICAL RESISTANCE

Our ceramic materials have extremely high chemical resistance and stain resistance. The appropriate specified ceramic surfaces from Tree Tile can be installed in almost any commercial setting, including laboratories, hospitals, and processing plants.

CERAMIC. A SAFE CHOICE.

07

UV RESISTANCE

Our tiles are low-maintenance, UV-resistant, and able to handle high temperatures.

08

SCRATCH RESISTANCE

Tilers must use a diamond-edged cutter to score and cut the tiles because of the density and extreme toughness of our tiles. This demonstrates how highly resistant our tiles are to fading and other types of damage, including scratches.

09

FREEZE RESISTANCE

Our tiles have exceptional frost resistance due to their high levels of porosity and water absorption.

10

HIGHLY COMPACT MATERIAL

Our tiles are incredibly compact because we carefully pack and assemble all of our products.

11

IDEAL FOR HEATING FLOORS

Our tiles are perfect for heating flooring since they conduct without insulating and heat up quickly.

12

HEATING SUN RESISTANCE

Our tile surfaces prevent burns and marks from occurring. They are heat-resistant, also slow the spread of fire. This implies that a tile cannot emit any smoke or gas.
